LONG BIO:

Serendipiti is fizzy indie folk-pop - bursting with ethereal charm. With hauntingly sweet guitar lines that grow into fizz-up-your nose cinematic sensations, her songs encapsulate a relentless dedication to uncovering the light in the darkness.

Joining Bigsound 2025 as Triple J Unearthed Comp winner, Serendipiti's recent singles 'Kinda F*cked' and 'Distance' have been praised for their emotional, diary-entry delicacy, as she paves the way for her upcoming debut EP. Coming off a run of supports with Infinity Song (USA), Thelma Plum, Alter Boy, and Jem Cassar-Daley, plus winning the Wild Turkey Music 101 Mentorship to share the stage with Killing Heidi, Serendipiti is sweeping straight across stages into hearts.
